Brian Shaw
Full Stack Developer

I am an experienced professional with expert knowledge in development and design. Using cutting edge technology, I am creative, resourceful and exercise extreme attention to detail. I enjoy a fast-paced and collaborative project environment and possess the abilities to problem-solve by brain storming, flow charts and story boarding. I am highly proficient in HTML/CSS, Javascript, jQuery and MERN as well as numerous Adobe CC programs. I am an excellent communicator with strengths in both soft-skills and interpersonal skills.
